KLEVER ECOXCHANGE

The first recycled plastic safety cutter

Multipurpose wide (3) blade head KLEVER ECO X-CHG DX MP

MADE IN THE USA 

The **Klever EcoXChange** is the **FIRST** recycled plastic safety cutter and as an ideal solution to support your company's sustainability objectives.

The reusable handle and replaceable blade head design allows you to reduce plastic waste. Keep the handle, replace the head!

Made from 95% recycled material

- Reduce plastic waste by reusing the handle and only replacing the blade head
- Concealed high-quality carbon steel blade reduces cut injuries and damaged goods
- Made with advanced plastic polymers for superior strength and durability
- Utilises eco-conscious packaging

Ideally suited for:

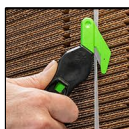

CORRUGATE
or BOXES

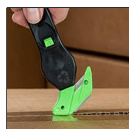

FILM / STRETCH
or SHRINK

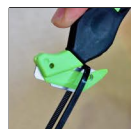

BAGGED
GOODS

PLASTIC
BANDING

TAPE

LIGHT-DUTY
ZIP TIES
