WHAT ARE YULEYS?

YULEYS are the simplest, easiest to use, hands-free, slip-on/slip-off safety footwear protectors. **YULEYS** are uniquely designed to conveniently and quickly fit over safety footwear enabling tradesmen, contractors, mechanics, inspectors, delivery persons, and home gardeners to enter clean environments (residences, board rooms, cafeterias, lunch rooms, offices, and show rooms) without the need to remove their dirty footwear, thereby protecting indoor flooring.

An environmentally friendly and cost conscious alternative to those currently using plastic booties for each site visit, **YULEYS** can easily be cleaned with warm water for years of use. **YULEYS** solves the dilemma of keeping workers safe and environments clean.

WHY YULEYS?

-  **Non slip grip for better traction on hardwood, tile, linoleum, and carpet**
-  **Completely hands free**
-  **Keeps indoor flooring clean**
-  **Works with all safety footwear**
-  **Reduces effects on landfill**

What Sizes are YULEYS available in?

US/CAN	AUS
7	6.5
8	7.5
9	8.5
10	9.5
11	10.5
12	11.5

Safety Footwear Sole Length		
Minimum	Maximum	Proper YULEYS Size
29.2 cm	30.5 cm	Size 7
30.2 cm	31.4 cm	Size 8
31.1 cm	32.0 cm	Size 9
31.8 cm	33.0 cm	Size 10
32.7 cm	34.0 cm	Size 11
33.8 cm	35.2 cm	Size 12

Guidelines for selecting the right size YULEYS (What size should I buy?)

Measure the sole length of your safety footwear by putting the toe against a wall or straight surface and make note of where the heel ends. Measure this distance exactly with a ruler or measuring tape. If the length falls in a range between two YULEYS sizes, select the smaller size.
